an analysis of the historical political and social aspects of the concept of revolution through a series of country case studies this edition includes revised material on bohemia england france russia turkey and china as well as two case studies from the 20th century iran and mexico

leading historians from around the world reflect on the great revolutions of modern history and explore their lasting legacies whether it s because their rhetoric liberty fraternity equality articulates those ideals to which we most aspire or because we are shocked by the destructive forces that are unleashed when social conventions break down revolutions hold a distinct place in the popular imagination and while all revolutions are born of civil unrest each is unique in that it s a product of its time its society and its people and the outcomes vary dramatically from liberal reform to cruel dictatorship in revolutions the follow up to the bestselling histories of nations twenty four leading historians most writing about their country of origin consider global revolutions

from england s glorious revolution of 1688 and the american revolution in 1776 to the irish revolution in the early twentieth century and the arab spring of 2011 reflecting not only on their causes crises and outcomes but also on their legacies and implications in today s society these historians answer key questions what were the main events and dominant ideologies who were the leading protagonists are revolutionary pasts remembered critically in national history mythologized or even hidden and why authoritative and enlightening revolutions reflects on the events ideologies and legacies of twenty four revolutions from the seventeenth century to the present day providing an overview of some of the most politically significant events in modern history

from 1789 in france to 2011 in cairo revolutions have shaken the world in their pursuit of social justice revolutionaries have taken on the assembled might of monarchies empires and dictatorships they have often though not always sparked cataclysmic violence and have at times won miraculous victories though at other times suffered devastating defeat this very short introduction illuminates the revolutionaries their strategies their successes and failures and the ways in which revolutions continue to dominate world events and the popular imagination starting with the city states of ancient greece and rome jack goldstone traces the development of revolutions through the renaissance and reformation the enlightenment and liberal constitutional revolutions such as in america and their opposite the communist revolutions of the 20th century he shows how revolutions overturned dictators in nicaragua and iran and brought the collapse of communism in the soviet union and eastern europe and examines the new wave of non violent color revolutions the philippines yellow revolution ukraine s orange revolution and the arab uprisings of 2011 12 that rocked the middle east goldstone also sheds light on the major theories of revolution exploring the causes of revolutionary waves the role of revolutionary leaders the strategies and processes of revolutionary change and the intersection between revolutions and shifting patterns of global power finally the author examines the reasons for diverse revolutionary outcomes from democracy to civil war and authoritarian rule and the likely future of revolution in years to come about the series oxford s very short introductions series offers concise and original introductions to a wide range of subjects from islam to sociology politics to classics literary theory to history and archaeology to the bible not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field every very short introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society eventually the series will encompass every major academic discipline offering all students an accessible and abundant reference library whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the very short introductions series has a handy and affordable guide that will likely prove indispensable

revolution and state breakdown are the focus of this important new book that analyzes the most prominent theories of revolution and points to future directions covers famous revolutions from history france china russia and those in the developing world in addressing such key questions as why are revolutions so rare revolutions also looks at the state breakdowns in eastern europe after 1989 the typical outcomes of revolutions and the possible future of revolutions an appendix presents biographical and autobiographical sketches of several of the most prominent students of revolutions

many political regimes today draw such legitimacy as they have from a revolution the destruction of an existing political elite and its replacement by a different group or groups drawn from inside the same society a large part of the ideological dispute in world politics has come in consequence to turn on an interpretation of the character of revolutions as political and social events it is extremely difficult to separate ideological assessments of the desirability or otherwise of what has occurred in revolutions from causal explanations of why these revolutions occurred and both major traditions in the analysis of revolutionary phenomena have been damaged by their failure to distinguish clearly between explanation and assessment in examining eight major revolutions of the twentieth century john dunn helps readers to remedy this state of affairs by thinking for themselves

this broad comparative survey traces the origins developments and outcomes of revolutions starting with the english revolutions in the 17th century and going on to the mexican russian vietnamese and iranian revolutions

this expanded updated edition of revolutions offers a new chapter on terrorism and on social movements including jihadism revolutions and state breakdowns are the primary focus as sanderson presents prominent theories and describes the process of revolutions the book covers famous revolutions from history france russia china and several social and political revolutions in the third world cuba nicaragua iran and the philippines given the frequency of revolutionary movements a key question addressed by the book is why are actual revolutions so rare sanderson also assesses the state breakdowns in eastern europe and the soviet union after 1989 the typical outcomes of revolutions and the future of revolutions an appendix presents biographical and autobiographical sketches of several of the most prominent scholars of revolutions

the collection the age of revolution history of the american french revolution vol 1 2 presents a sweeping exploration of two defining upheavals that reshaped the modern world across its expanse the anthology captures the tumultuous era with a blend of stylistic rigor and narrative insight moving through various forms of historical discourse from insightful analysis to vivid historical narration the anthology illuminates the variegated landscape of revolutionary fervor themes of liberty equality and fraternity underline a narrative that bridges personal sacrifice and a collective quest for change crafting an illuminating mosaic of revolutionary spirit the authors featured including luminaries such as john fiske and charles downer hazen provide a diverse range of perspectives each contributing their authoritative voice to the broader discourse on revolution their profound engagement with historical context underscores the integral connections between individual experiences and larger historical paradigms the anthology is positioned firmly within the historiographical tradition enriching our understanding of the enlightenment and its enduring impact on socio political movements the collective insights offer a complex portrait depicting how disparate experiences come together in a radical shift towards modernity this anthology is an indispensable resource for readers seeking to immerse themselves in the multifaceted narratives of revolutionary transformation it offers a rare opportunity to explore contrasts and continuities between the american and french revolutions through expertly curated writings scholars students and enthusiasts alike will find this collection invaluable for its depth of inquiry and the interplay of perspectives it fosters delve into this anthology to expand your understanding of the revolutionary era and appreciate the complex tapestry of voices that have shaped our historical

consciousness

the encyclopedia of political revolutions is an important reference work that describes revolutionary events that have affected and often changed the course of history suitable for students and interested lay readers yet authoritative enough for scholars its 200 articles by leading scholars from around the world provide quick answers to specific questions as well as in depth treatment of events and trends accompanying revolutions includes descriptions of specific revolutions important revolutionary figures and major revolutionary themes such as communism and socialism ideology and nationalism illustrative material consists of photographs detailed maps and a timeline of revolutions

violent political upheavals have occurred as long as there have been political communities but in europe only since the french revolution have they sought not merely to change the rulers but to transform the entire social and political system one of a j p taylor s themes in this generously illustrated book based on his 1978 television lectures is that revolutions and revolutionaries do not always coincide those who start them often do so unintentionally while revolutionaries tend to be most active in periods of counter revolution in his lively and combative style the author traces the line of development of the revolutionary tradition from 1789 through chartism the social and national upheavals of 1848 the revolutionaries without a revolution of the following sixty years marx engels bakunin and others to the bolshevik seizure of power in 1917

departing from the great revolutions tradition jack a goldstone ted robert gurr and farrokh moshiri have drawn together a variety of area experts to examine contemporary revolutionary crises in light of recent social and political developments the result is a wide ranging compendium of cases placed in current theoretical perspective the book opens with a survey of theories of revolutionary conflict ranging from marx and engels to skocpol and tilly next goldstone lays out an analytical framework for understanding contemporary revolutions that traces a sequence from processes of state breakdown and the ensuing struggle for power to the process of state reconstruction the framework is then used to examine ten very different revolutionary crises in vietnam nicaragua iran poland afghanistan the philippines cambodia zimbabwe south africa and the palestinian uprising in the west bank and gaza factors implicit in state breakdown and reconstruction such as political and fiscal crisis elite divisions and mass mobilization are highlighted in the analyses of the individual crises the concluding chapter coauthored by gurr and goldstone compares the origins dynamics and outcomes of the revolutions in the case studies and applies the findings to ongoing and prospective cases taken together the contributors and editors work shows that the end of the cold war does not signal the end of revolution and that with proper attention to certain conditions and factors revolutionary surprises such as those in eastern europe need not catch us off guard in the years ahead this paragraph for text promotion only appropriate for upper division courses in revolutions and social movements revolutions of the late twentieth century is fully documented illustrated with maps figures and comparative tables and bolstered by chronologies to accompany each country specific chapter

the first truly global history of revolutions and revolutionary waves in the modern age from atlantic revolutions to arab spring

the book revolution is designed to be easy reading for any person who wants to learn about the many painful but glorious steps in human social evolution it could be used in academic institutions to teach and help readers how society has actually moved nine chapters are devoted to the description and evaluation of nine different revolutions those that have been of the greatest importance in changing social institutions and social evolution in completely new directions in addition to describing the revolutions the book examines each revolution from the viewpoint of four different aspects of society economics politics technology and ideology near the end of the book a chapter explains the major events of each revolution within the theoretical framework that has been developed the next chapter states how the average revolution has happened in various processes and different dimensions thereby creating a progressive theory of how the average revolution proceeds finally the last chapter describes exactly how present history is progressing within the framework established within the rest of the book

on cover the antecedents character and history of the revolutions of the modern age from the american revolution to the revolutionary violence of the 1980 s
